#### Want Further Proof?

**Take A Look** at what one expert, and some satisfied customers have to say:

Gerri Detweiler,  
Consumer Credit Expert:

Two years ago I asked Mark to be a guest on my national radio show called Everyday Wealth. During that program, Mark spoke about common mistakes consumers make when it comes to their credit, and certain action they could take to effectively improve their credit scores.

Since that time Mark and I have maintained regular contact. I have found Mark to be extremely knowledgeable when it comes to a wide range of consumer credit issues. I have personally referred a number of people who were in need of personal credit advice to Mark.

I believe Mark offers a valuable service to anyone who desires to learn more about how credit scoring works, and wants to raise their credit scores. I personally do not know of anyone else in the country offering this service for such a low price, or one that offers a full and unconditional money back guarantee.

I am convinced that Mark is in this business primarily to help people, rather than to make big bucks off of other people's ignorance or misfortune. He is one of the good guys in a field that has a lot of "not so good guys."

So, if you choose to use this service, I am quite confident that you will be extremely glad you did. Mark can save you a whole lot of confusion, and a whole lot of money.

Kurt Schneider  
Durango, Colorado:

Having run my own mortgage company for over 13 years, I felt as though I was pretty knowledgeable when it came to understanding credit reports and the credit reporting industry in general. After reading the newsletters I received from Mark Enderle at Preferred Credit Solutions I realized how deficient my actual knowledge was.

The practical knowledge and understanding both my clients and I have received from Mark has helped me help my clients save money by lowering their mortgage rates as a result of better credit scores, and has gotten them to take control over their credit profile, which previously left them feeling helpless. Mark has demonstrated again and again his commitment and dedication to counseling and educating consumers on the workings and pitfalls of the credit reporting industry.

I highly recommend Preferred Credit Solutions for those professionals who are impacted by credit scores, and for all consumers who want to better understand the industry that controls how they are viewed as credit risk.

Chuck Ennis,  
Shalimar, Florida:

The first time I contacted Mark I was very concerned about correcting some credit issues that appeared on my credit report that just were not true. He made me feel very at ease about some private credit problems. I felt like I could trust him, and that is not easy for me to say.

His knowledge of credit is way beyond what I expected. I can call or email Mark anytime, with any question concerning credit, and he walks me through some very complicated issues, and tells me the appropriate action needed. I can't imagine talking about these issues with anyone else.

Mark is one of the most honest people that I have had the pleasure of meeting in my 32 years in business in many diverse areas. The value of Mark's service is of significant worth.
